Notes to Editors

ACE provides a European platform for beverage carton manufacturers and their paperboard suppliers to benchmark and profile cartons as renewable, recyclable and low carbon packaging solutions. Engaging with stakeholders and partners seeking high environmental stewardship, it contributes expertise to EU policy, legislation and standard-setting.

ACE members include beverage carton producers Tetra Pak, SIG Combibloc and Elopak; they develop, manufacture and market systems for the processing, packaging and distribution of food, and produce packaging material at 20 plants in Europe. About 98% of the paperboard used by ACE members in beverage cartons in Europe is produced by Stora Enso in Skoghall (Sweden) and Imatra (Finland), and Korsnäs in Gävle and Frövi (Sweden), who are also members of ACE. These paper mills and the beverage carton manufacturers in ACE together employ close to 30,000 people worldwide.
